

Creating solutions in Sound and Video

TOA's business is shaped by three factors-Sound, Video, and Networking.

TOA has manufactured industrial- and professional-use audio equipment since the company's founding in 1934. In the eighties we evolved, leveraging our technological expertise to advance into security equipment including surveillance cameras. We now stand firmly established as a specialist maker of equipment in two fields: sound and video.

With the digital era in full swing, the proliferation of digital and networking technologies continues to open up new possibilities in both of our business fields. At TOA, by creating solutions woven from sound and video, we aim to be capable of offering new values that could never be realized with the manufacture of devices in one area alone. This is our aspiration.
